HURL BACK SIX GERMAN RUSHES

British Forces Repulse Desperate Onslaughts.

QUIET ALONG FRENCH FRONT

Some Mystery Exists as to Situation on the Eastern Front, Russian, German and Austrian Reports Showing No Activity.

London, Aug. 18.—Six times the Germans advanced in force in a desperate effort to beat back the British lines northwest of Pozieres.

London reports that all of these assaults were repulsed with heavy losses and that the British in turn captured about 100 yards of trenches northwest of Babentin.

An interesting feature of the situation on the western front is that the Germans, contrary to their usual practice, have so far made no attempt to deliver a counter attack in the region where the French and British claim to have captured nearly three miles of trenches on Wednesday.

The French are busily consolidating their gains and report no action of importance on any section of their front, including the Verdun region.

Some mystery exists as to the situation on the eastern front. For two consecutive days the Russians have confined themselves to statements that nothing of importance had occurred.

The Austrian and German war offices have been almost equally uncommunicative.

The only fighting mentioned by Vienna was the repulse of Russian attacks on the lines of General von Boehm-Ermolli, who is in command of the Teutonic forces retreating from the Tarnopol front. Berlin reports the repulse of Russian attacks south of Brody.

The lull in the Italian operations against Trieste is unofficially explained from Rome as due to General Cadorna's desire to straighten his lines before proceeding with a general offensive against the great Austrian seaport.

Austrian seaplanes have again raided Venice, but Rome says they caused only slight damage.

CANADA SEEKING NAVAL RECRUITS

Ottawa, Ont., Aug. 18.—Canada is enlisting men for service in the British navy, a departure in policy, as it was decided at the beginning of the war to confine recruiting in Canada to land forces.

The plan is to enlist men in the Canadian naval service with the understanding that they serve on ships of the imperial navy. The enlistment is for the period of the war and although the men will be on admiralty craft they will be paid by Canada at the Canadian naval reserve rates, which are considerably higher than the British rates.

No commissioned officers are to be taken, but sailors, stokers, artificers, gunners and all other naval ratings will be sought among sailors and fishermen of the Atlantic, Pacific and Great Lakes of Canada.

JUDGE GETS DOSE OF HIS OWN MEDICINE.

Chicago, Aug. 18.—Judge Edward T. Wade, who as former judge of the speeders' court, had fined thousands of violators of automobile speed laws, was himself found guilty on charges of speeding. He was fined \$10.

The charges of driving an automobile while intoxicated and using abusive language to the policeman who arrested him were dismissed. Judge Wade's charges of disorderly conduct filed against the police officer also were dismissed.

Secretary Says Minnesota State Fair is the Leader.

\$84,604 FOR FAIR PRIZES

Fund Provided by Minnesota Never Equalled by Other States.

St. Paul, Aug. 18.—The offer of \$84,604 in cash prizes to exhibitors at the Minnesota state fair, Sept. 4 to 9, is said by members of the board to be itself sufficient to make the 1916 exposition one of the best in the history of the state. This sum for the educational and material interests of a state, Secretary J. C. Simpson says, has never been equalled by any state fair association in the United States.

Of the total sum \$78,191 is to be awarded in cash premiums. Also special cash prizes of \$4,000 are offered by several breeding associations and \$425 will be distributed in special premiums by the Minnesota state fair commission. Other trophies and prizes are valued at \$2,000. These cash offerings are expected to attract exhibitors from all parts of the country.

In the distribution of prizes the state board has devoted the greater share for horses, cattle, sheep, swine, wool, poultry and dairy products. In this particular branch \$35,386 is to be given, including the \$20,000 for the speed program, a total of \$57,286 is offered by the fair management for the encouragement of better live stock.

Nearly \$15,000 is for the horticultural and agricultural departments.

At the time of his death Colonel Clough, in addition to being chairman of the board of directors of the Northern Pacific, was president of the North-western Improvement company, a subsidiary to the railroad organized to handle coal business; director of the Burlington railroad; director of the Colorado and Southern railroad; vice president of the Northern Express company and director of the Crow's Nest Pass Coal company.

MEN MAY AGREE TO WILSON PLAN

Railway Presidents Liable to Uphold Managers.

SITUATION VERY UNCERTAIN

Heads of Important Railways Are Arriving in Washington to Consult With the President on Means of Preventing Great Strike.

Washington, Aug. 18.—President Wilson's plan for averting the threatened railroad strike is expected to be accepted by the committee of employees. This was the forecast after leaders of the employees left the conference with the president.

A conference between the railroad presidents and the managers' committee developed further indications the managers are to be backed up by the chiefs in the attitude they had taken toward the president's proposals.

"We have gone over the situation thoroughly," said one of the presidents, as he left the conference, "and we agree thoroughly in every particular with what the committee has done."

The president's plan is: Eight-hour day as basis for computing wages.

Regular pay at the eight-hour day rate for overtime.

To confer all other collateral issues to a small commission to be created by congress on which the employees, the railroads and the public would be represented.

"The men would be fools not to accept it," one member of the employees' committee said after the conference.

Railroad presidents began arriving in response to President Wilson's invitation to confer with him immediately regarding the situation. Their attitude toward the plan is not so clear.

Oppose Eight-Hour Day.

From such information as can be gathered it appears the railroad presidents, if the managers' committee understands them, are unalterably opposed to conceding the eight-hour day or anything else out of hand, but are quite ready to arbitrate anything and everything in almost any form of arbitration upon which the employees and the committee may agree.

The railroad presidents, it is understood, justify their stand on the broad ground of maintaining the principle of arbitration, which, if sacrificed in this instance, they intend to tell the president, will be destroyed as a factor in the settlement of industrial disputes.

If the railroad presidents persist in that view and are supported by the financial powers only the future can tell the outcome.

With the growing seriousness of the situation congress began paying more real attention to the crisis and there were many indications of intervention to prevent a nationwide tieup.

The general expectation is the railroad officials, after seeing the president, will ask that they be given several days, perhaps a week or more, to consider their course. It was emphasized by those of the officials who arrived, however, all of these plans are tentative.

ATTACK ON GERARD BY GERMAN PRESS

Berlin, Aug. 18.—A vigorous attack on Ambassador Gerard is made by the Berlin Morgenpost and the Cologne Gazette.

The attack is due to the attitude toward the German censorship he is alleged to have displayed in a confidential communication to the state department.

American correspondents in Berlin recently handed the ambassador a protest against British censorship of cable and mail dispatches they had sent to the United States.

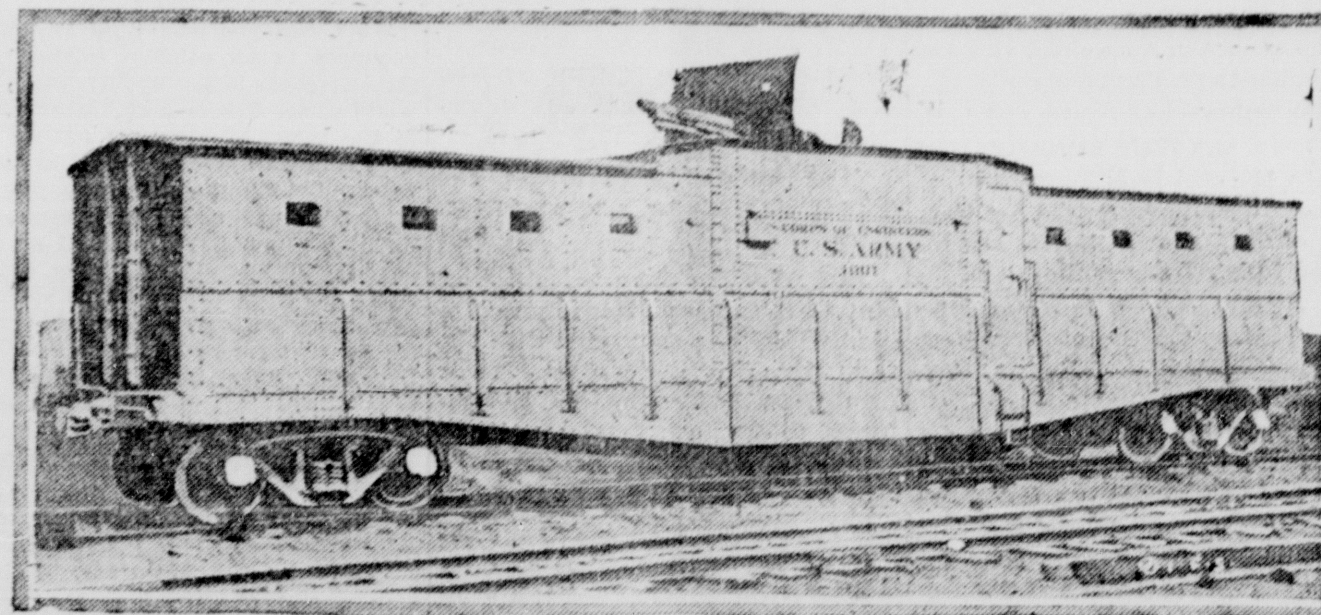

They complained the British censor badly mutilated many of their dispatches and that a large percentage of their mail stories failed to reach America at all.

In transmitting the protest Ambassador Gerard is said to have sent a note recommending no action be taken by the state department unless Germany removed the censorship on news.

The attack is due to the attitude toward the German censorship he is alleged to have displayed in a confidential communication to the state department.

American correspondents in Berlin recently handed the ambassador a protest against British censorship of cable and mail dispatches they had sent to the United States.

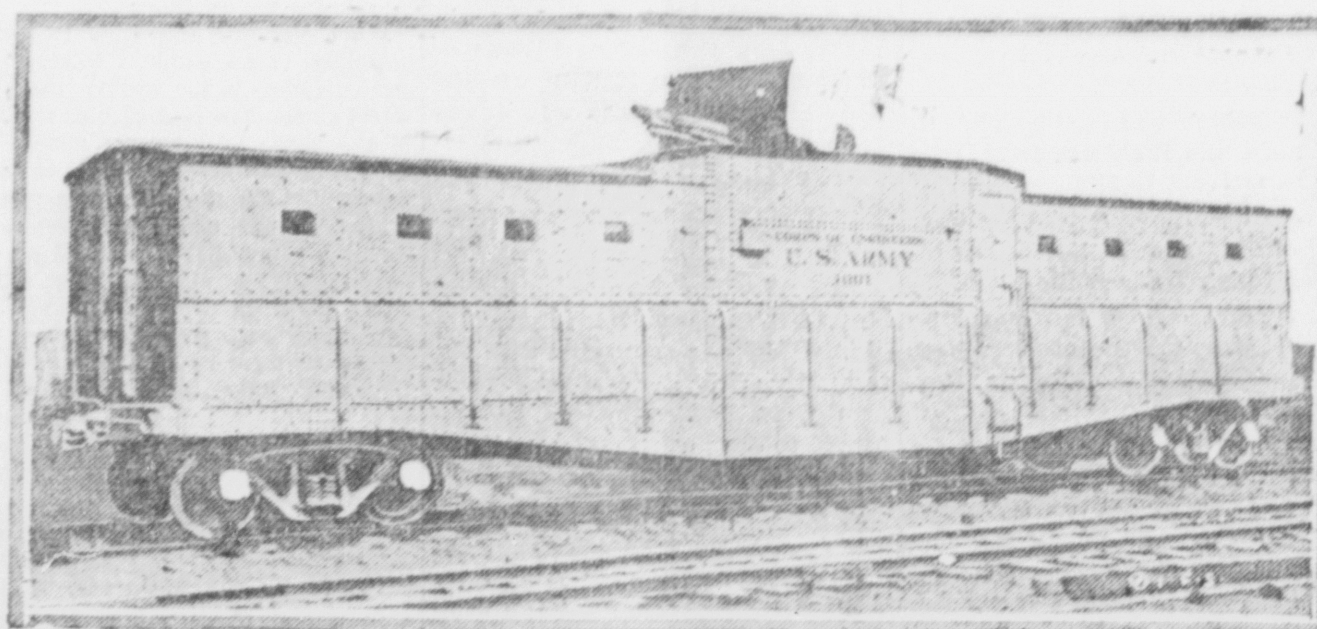

They complained the British censor badly mutilated many of their dispatches and that a large percentage of their mail stories failed to reach America at all.

In transmitting the protest Ambassador Gerard is said to have sent a note recommending no action be taken by the state department unless Germany removed the censorship on news.

The passing of Capt. Henry A. Castle removes another of the pioneer newspaper men of Minnesota. He was a charter member of the state association of editors, did editorial writing on the Anoka Union just after the close of the war and was later editor-in-chief of the St. Paul Dispatch until 1885. He held many positions of trust, among which was the auditorship of the postoffice department at Washington. He was a soldier and was with Sheridan in the army of the Cumberland having been promoted from private to captain for bravery. He was one of the public men of the state who will long be remembered for his goodly deeds.

Clocks in Winnipeg have been running on eastern time all summer, it being a daylight scheme to gain an hour of pleasure time for the masses at the close of the day. On the 17th of next month the clocks will be stopped for an hour in order that time may catch up with the western regulation. Of course there would be no reason why men should not go to work an hour earlier, in order to get an hour of daylight after they have quit their labor even if the time-piece did not so indicate but when the clock says 6 a fellow does not like to start the daily grind when the habit has been 7—turn the clock around and you do not seem to mind it. He Could Hardly Walk

Deranged kidneys cause rheumatism, aches, pains, soreness, stiffness. Ambrose Gary, Sulphur, Okla., writes: "I was bothered with kidney trouble ten years and at times could hardly walk. I began taking Foley Kidney Pills. I got relief from the first but continued till I had taken three bottles. I feel like a new man." H. P. Dunn, druggist. mwf

MICHIGAN MAN INVENTS COW COCKTAIL.

Milwaukee, Aug. 18.—"Chop nice green beets fine, serve in a large bucket, just before feeding time."

This is the prescription for a cow cocktail, as proclaimed by Senator Alton T. Roberts, head of a big dairy farm near Marquette, Mich., to be the best method of getting more milk. Senator Roberts says that a cocktail to a cow is as beneficial as an aid to larger milk production.

WALSH GOES AFTER HUGHES

Montana Senator Flays Presidential Candidate.

Chicago, Aug. 18.—Senator Thomas J. Walsh, of Montana, addressing a conference of state Democratic leaders here, reviewed the administration of President Wilson, predicted Democratic victory in November and criticized Charles E. Hughes for his alleged failure to outline a constructive policy in his campaign speeches. "There is a deep seated conviction," said Senator Walsh, "that it would be nothing short of a crime to risk a change in national administration at this time when the country is facing so many serious problems."

Strategy.

"What was all the argument between you and the judge yesterday?" "Oh, we were discussing the merits of our respective cars."

"That's a foolish thing to do. You can never convince a man what your car is better than his."

"I know that, but I got him so mad that he committed himself to the statement that my car can't make over ten miles an hour. The next time I'm brought up before him for speeding I'll remind him of that."—St. Louis Post-Dispatch.

THE OLD HOME SONGS SANG

Chautauqua Resounded With Applause by Many Pleased With Night's Performance

SONGS STRAIGHT TO THE HEART

"Sweet Genevieve," "Capt. Jinks," Lullaby in Rag Time—Chimera Band Today

The songs that reach the heart, the songs you heard in the days of long ago, the good, old songs that no syncretized time will ever drive out, these songs were given with artistic ability by the group of "Old Home Singers" at the Chautauqua and judging by the applause from the crowded tent, the songs were just as pleasing as in the days when first they made their appearance.

Combined with the songs was a clever sketch. The entertainment closed with "Home, Sweet Home."

This afternoon and this evening Chimera and his band appear in concert, giving a festival of melody in great volume and superb sweetness. There are 19 in the organization.

Saturday morning at 9 o'clock there is the funfest for the children. At 2:30 the Bohannons appear in an entertainment. At 3 o'clock Dr. James L. Gordon, Canada's greatest preacher, will speak. At 8 in the evening the Bohannons appear in a laughable sketch entitled, "A Matrimonial Venture." At 8:45 Ducrot, the wizard, gives an entertainment of mystery, magic and illusory experiments.

The Chautauqua closes Sunday, the Christine Giles company appearing afternoon and evening. At 3 in the afternoon Hon. B. E. McDonald talks on "Moonshine," a most interesting lecture and he uncovers a great many shams commonly practiced.

Minneapolis Woman Describes Mate's Experience With Tanlac

"He Feels Like Himself Once Again, Since Taking This Preparation," She Frankly Asserts—Highly Praises Master Medicine

Minneapolis, Minn., August 18—"Tanlac did more for my husband in a month than all other medicines did in six years," Mrs. John Larson, a well known Minneapolis woman of 3101 Sixteenth avenue, said on June 12.

"Mr. Larson suffered from stomach trouble in the form of indigestion," she continued. "Nervousness also bothered him and his system was in a general run down condition. It had been this way for more than six years. He could eat but very little and was annoyed by gas formations. He couldn't rest well at night and had become very weak."

"My husband feels like himself once again after he has taken two bottles of Tanlac. His appetite is good and the indigestion no longer bothers him. The nervousness has been completely banished and he's gaining strength rapidly. Because of Mr. Larson's relief I want to recommend Tanlac."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, sleeplessness, loss of appetite and the like and has proven a fine reconstructive tonic.

Tanlac is now being specially introduced and explained in Brainerd at Johnson's Pharmacy.—Advt.

A Model Husband Wife Wants Divorce

(By United Press)

New York, Aug. 18—Laten ladies—Samuel Richards, 48, director of an elevator manufacturing firm, residing in Brooklyn is the perfect husband.

And Hsten—men, his wife is suing him for divorce.

In the 20 years that followed Samuel's promise to protect Mary Aenes Richards, he has worked every day, but one, without a vacation. He has been home every night, he has allowed himself only carfare and lunch money. He has bought a home and he has given his wife \$100 every Christmas. He has never seen a baseball game nor entered a theatre, he would not know a cabaret from a county fair, he has never tasted beer or other liquors, nor has he smoked or chewed. His affections, he said in his answer to his wife's bill for divorce, have never strayed. But despite all this, his wife charges cruel and inhuman treatment. Though Samuel did not do any of the things that cause young brides tears, he just would shove her through the window, Mrs. Richards says.

At the Best Tonight

"Civilization's Child," will be the film at the Best theatre tonight. The story is as follows:

A girl who has seen her relatives murdered in a massacre of Jews by a Russian mob, with the Czar's Cossacks permitting the slaughter, comes to America. Here, she has been told, the law and those sworn to enforce it protect the weak and defenseless. The second chapter of "Civilization's Child" finds her working in her uncle's sweatshop in New York. The uncle is protected in his violations of labor laws by a political boss, to whom he is forced to send the girl. This only begins a career of wretchedness which ends in her vengeance upon the man representing the civilization that brought her to desolation. This character is powerfully portrayed by Will H. Thompson, while Anna Lehr is seen as the heroine.

A Good Thing For Children

Foley's Honey and Tar is a particularly good cold, cough and croup medicine for children because it contains no opiates or habit-forming drugs. The "little colds" of summer as well as the long standing, deep seated coughs, that hang on for months, are banished by its use. The first dose brings relief and comfort. H. P. Dunn, druggist—Advt. mwf

Is Grammar Essential?

Sometimes it is urged that formal grammar teaches children to write and speak correctly, but as all Americans have studied formal grammar, including newspaper reporters and saleswomen, there would appear to be no guarantee that formal grammar study leads to correct habits of speech. On the other hand, I once knew a school where for fourteen years not a minute was spent on formal grammar, and, like the worm that does not miss a slice or two, no one ever knew the difference.—Atlantic Monthly.

WIFE TELLS OF HUSBAND'S CASE

Minneapolis Woman Describes Mate's Experience With Tanlac

BROUGHT HIM BIG PROFITS

"He Feels Like Himself Once Again, Since Taking This Preparation," She Frankly Asserts—Highly Praises Master Medicine

Minneapolis, Minn., August 18— "Tanlac did more for my husband in a month than all other medicines did in six years," Mrs. John Larson, a well known Minneapolis woman of 3101 Sixteenth avenue, said on June 12.

"Mr. Larson suffered from stomach trouble in the form of indigestion," she continued. "Nervousness also bothered him and his system was in a general run down condition. It had been this way for more than six years. He could eat but very little and was annoyed by gas formations. He couldn't rest well at night and had become very weak."

"My husband feels like himself once again after he has taken two bottles of Tanlac. His appetite is good and the indigestion no longer bothers him. The nervousness has been completely banished and he's gaining strength rapidly. Because of Mr. Larson's relief I want to recommend Tanlac."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, sleeplessness, loss of appetite and the like and has proven a fine reconstructive tonic.

Tanlac is now being specially introduced and explained in Brainerd at Johnson's Pharmacy.—Adv't.

THE OLD HOME SONGS SUNG

Chautauqua Resounded With Applause by Many Pleased With Night's Performance

SONGS STRAIGHT TO THE HEART

"Sweet Genevieve," "Capt. Jinks," Lullaby in Rag Time—Chimera Band Today

The songs that reach the heart, the songs you heard in the days of long ago, the good, old songs that no syncope time will ever drive out, these songs were given with artistic ability by the group of "Old Home Singers" at the Chautauqua and judging by the applause from the crowded tent, the songs were just as pleasing as in the days when first they made their appearance.

Combined with the songs was a clever sketch. The entertainment closed with "Home, Sweet Home."

This afternoon and this evening Chimera and his band appear in concert, giving a festival of melody in great volume and superb sweetness. There are 19 in the organization.

Saturday morning at 9 o'clock there is the funnest for the children. At 2:30 the Bohannons appear in an entertainment. At 3 o'clock Dr. James L. Gordon, Canada's greatest preacher, will speak. At 8 in the evening the Bohannons appear in a laughable sketch entitled, "A Matrimonial Venture." At 8:45 Ducrot, the wizard, gives an entertainment of mystery, magic and illusory experiments.

The Chautauqua closes Sunday, the Christine Giles company appearing afternoon and evening. At 3 in the afternoon Hon. B. P. McDonald talks on "Moonshine," a most interesting lecture and he uncovers a great many shams commonly practiced.

"PUSSYFOOT" JOHNSON WAS IN BRAINERD

Noted Head at One Time of the Indian Agents Who Put Brainerd Dry Several Years Ago

WAGING BIG DRY CAMPAIGN

Covering States of South Dakota, Michigan and Montana, Johnson Predicts Victory

"Pussyfoot" Johnson Aphorisms in Interview

"We don't depend entirely on the people who do not drink, to carry a state in a dry campaign." "The people who drink help us win a dry campaign." "Prohibition contests overshadow presidential campaigns in some states." "People want the liquor question settled before they take up any other issues." "I expect the dries to win in South Dakota, Montana and Michigan."

"Pussyfoot", W. E. Johnson, at one time head of the Indian agents who put Brainerd dry several years ago and who has lived to see most of the Minnesota Indian treaty country dry, passed through Brainerd this noon. He was on his way from Duluth to Montana.

Mr. Johnson edits the "New Republic," devoted to temperance and claims over 100,000 subscribers. He is in charge of the publicity work carried on in the dry campaigns waged in Michigan, South Dakota and Montana. With so many varied duties, he edits his paper by telegraph.

His campaign headquarters are at Mitchell, S. D., with branches in Lansing, Mich., and Helena, Mont.

"The situation points to victory for the dries in South Dakota and Montana and it looks good in Michigan. In Montana the cattlemen and mining men especially favor prohibition," said Mr. Johnson.

"Why, if we depended on the people who do not drink to carry a state, we would never win. Our biggest list of voters, in many cases, includes men who drink. Montana has had very little of county option. There is but one dry county in the whole state," said Mr. Johnson.

"California, Nebraska and Alaska also vote on prohibition this year. In many states the prohibition contest overshadows the presidential campaign. In fact, the people want the liquor question settled before they take up any other issues," said Mr. Johnson as the train sped away.

BRAINERD'S ODDEST STORIES TODAY

Randall makes a bid for first page honors. J. M. Totten has finished a big building in Randall, the roof of which has been made into a delightful roof garden. The grand opening is tonight. The ladies of the Catholic church will serve refreshments and a five-piece orchestra will play.

Little Falls is bound to have (a) good time, for a new clock is to be installed in the court house.

Mike Ryan dived deep into the Gaelic language to get a name for his summer home out at Pelican lake. It is called "Tubber Au Dauren" and it takes some scholar to give the name the right twist. If the name means hospitality it fills the bill, for Mr. Ryan has the whole countryside as friend and neighbor. There is no telephone connection between "Tubber au Dauren" and Mike's law office in Brainerd and consequently he can incline his feet on the veranda, smoke a cigar and enjoy himself to his heart's content. Mr. Ryan has solved the way of having the best kind of a time and that is in planning to make other people happy too.

CAME TO SAVE HIS FRIEND

And Then Drobec, Like Klasnich, Was Put in Custody by the Court Commissioner

FEDERAL OFFICERS ARE BUSY

So Far Few Have Been Able to Gather up Bondsman to Secure Their Liberation

It was a sad day for Steve Drobec, who traveled all the way from Cuyuna village to Brainerd to testify before U. S. Court Commissioner W. A. Fleming and save his friend Porko Klasnich. The latter had been arrested on a charge of having liquor in a soft drinks place at Cuyuna and witness had so testified and Klasnich had been placed under \$200 bail bonds, after being bound over to the federal jury.

Then came Drobec and swore the liquor was not Porko Klasnich's, it was his own.

"You say you own the liquor the Indian agents seized?" asked the court commissioner.

"I do," said Drobec.

"Then I guess you'll keep your friend company," said Judge Fleming and ordered him taken in custody, placing bonds at \$100.

Of those charged with violating liquor laws of the Indian territory, bonds have been fixed by Court Commissioner Fleming at the amounts named: Porko Klasnich, of Cuyuna, charged with running a blind pig, the officers claiming to have located five bottles of liquor and a quart of alcohol, bonds of \$200. Steve Drobec, of Cuyuna, who swore he owned the liquor that Klasnich had, \$100 bonds. Of the five who were taken at a resort on the north Cuyuna iron range, Robert Johnson, owner of the Ford car which may be confiscated, \$200 bonds. The four in the car which was also loaded with 135 quarts of beer, Peter Magdich \$200 bonds and George Barvich, Bozo Bonovich and John Dulch, joint bond of \$600. Klasnich has a court record, having drawn 30 days and \$100 fine for "blindpiggling," sentence being meted out by the district court.

Card of Thanks

Mrs. Charlotte Stowell, Mr. A. L. Blern and Mr. George Lemire desire to thank George A. Tracy and his companies for the way that they adjusted the losses sustained by them and recommend him to their friends and others desiring insurance.

NORTHWEST NEWS

Ten Round Go Tonight

St. Paul, Minn., Aug. 18.—The winner of the Mickey Sheridan-Mike O'Dowd ten round go at the auditorium this evening gets a chance to fight Jack Britton, world's champion welterweight boxer. Britton's manager is regarded here today as an egotistic cuss, too. In arranging for the bout, Britton's manager told Mike O'Dowd that he didn't want to match Jack Britton against him for the championship. Mike replied that it was nothing in his young life. Then Britton's manager is reported to have come back with a demand that O'Dowd hold his tongue and that if he licked Sheridan here tonight, Jack Britton would consent to come to St. Paul to "beat O'Dowd up" for the edification of his home folks here. "Ain't that real sweet of Britton?" said a fan today. "It's real lovely to be a champion, don't cher know."

Both Russia and Germany display two headed eagles on their standards. Yet this symbol is considered by some heralds to be merely the result of the horrible practice of "dimidiation." This was simply a child's way of im-
polling two coats of arms on the same shield by the primitive method of cut-
ting each in half and taking the dex-
ter half of one and the sinister half of
the other and placing them back to
back, as it were. Strange two headed
beasts naturally resulted—as, for in-
stance, when a lion and an eagle were
halved and joined together. The grif-
fin is supposed to have been evolved
from two lions rampant by dimidi-
ation.—London Spectator.

appish."
"She can save her airs. I'm just as
anxious not to get acquainted with her
as she is not to know me."—Pittsburgh
Post.
